FROM THE DESK OF

CHRIS WEBB

During my 25+ years as an A-list performer and Stunt Coordinator in Western Canada I have worked on hundreds of productions and learned from them all.

Massive productions such as I Robot, Inception, The Predator, G.I. Joe:Snake Eyes ,The Revenant or Tron:Ares teach pressure management and living up to high expectations. Smaller Indie productions teach efficiency, appreciation and the glory of over achievement. I have tried to take it all in and carry with me the no compromise attitude of big shows while maintaining the optimism that drives the little ones. I believe this always provides a path forward regardless of the challenges that may be presented along the way.

I'm organized, punctual, safe, creative, positive, respectful, highly experienced and I attract top performers to my shows because of my reputation.

I Love running vehicle units, shooting in mountainous terrain, doing water work and thriving in extreme or remote environments . From the Pacific Ocean to The Rockies to the Arctic, if we can film there I've probably been there and done something cool!

Thanks for your time and I look forward to working together.

Sincerely yours,

Chris Webb
